BASSANO, ALBERTA, THURSDAY, NOVEMBER 20, 1919

No. 11

## Apples! - Apples!

The cheapest, healthiest and most palatable food in the world when compared for food values and price with other commodities.

|   |          |      |                |                                  |          |      |
|---|----------|------|----------------|----------------------------------|----------|------|
| Jonathans, unwrapped.                   | Per case | 1.75 | Reduction in 5 | Wagner No., 1, wrapped.          | Per case | 3.50 |
| King No., 1, wrapped.                   |          | 3.75 | and            | Rome Beauties No., 1, wrapped.   |          | 3.50 |
| Holland Pippin No., 2, wrapped          |          | 3.25 |                | Jonathan No., 1, wrapped.        |          | 3.50 |
| Mother No., 1, wrapped. Splendid apple. |          | 3.50 | 10 Case Lots.  | Spitzbergen No., 1               |          | 3.75 |
| Grimes Golden No., 1, wrapped           | Per      | 3.50 |                | Sutton Beauties No., 1, wrapped. |          | 3.75 |

Compare these prices with the City charge. Owing to heavy frost in B.C., apples have advanced considerably. In fact some wholesalers are asking prices equivalent to above quotations

### XMAS CHINA AND GLASS

No more suitable gift could be imagined than a dainty piece of Nippon China. Our CROCKERY is complete. Dinner Sets, Tea Sets, single pieces.

### Neckwear and House Slippers

Talk about Xmas presents. Nothing could be better. Silk ties by the hundred. Values unequalled anywhere.

### SALT! SALT!

Farmers and Cattlemen. We have a carload at your disposal. Selling well because the price is right. In barrels, 50 lb. sacks & 50 lb. blocks.

### BROCTON SHOES

Leather goods in all lines have increased 30 per cent. The greatest advance in history. It will pay you to take a day off to inspect our display of dark Ox Blood shoes. Latest styles and good fitting. Every pair absolutely guaranteed. These are now in our window for inspection. \$9.50 per pair. Worth next spring \$13.00 without a doubt.

### SUITS and OVERCOATS

Another large shipment has just arrived including a number of large sizes in both lines. These are the real goods and splendid values. Prices, \$23.50, \$27.00 and \$30.00.

## STORES

### THE GEM THEATRE

Fri. and Sat.—Elsie Ferguson in "The Lie."  
Monday and Tuesday:  
Ethel Clayton in "Maggie Pepper."  
Wednesday and Thursday:  
Dorothy Dalton in "Hard Boiled."  
Friday and Saturday—Next Week:  
Norma Talmadge in "The Safety Curtain."

### TOWN COUNCIL

The last meeting of Council held on Monday was one of the most interesting of the present year and though nearing the end of the term when members might have been expected to have grown weary of well doing, they were all on their toes and full of ginger.

The only incident which marred the proceedings was when Secretary Carnegie woke Coun. Playfair and isolated upon his voting on a matter of red tape, which Billy very properly considered the psychological moment for forty winks.

Among the many weighty matters discussed were the granting of permission to M. J. Hill for the erection of an open air rink on the two lots east of the Hunter Hotel; the question of rebate on dry licenses which were decided in the negative; the instructions to the chief of police to rigidly enforce the license by-law against petty traders and travelling merchants; an offer of \$250.00 for a meter not in use (which needless to add was grabbed at once); the matter of improving crossings in town; a recommendation that the town superintendent inspect the fire hydrants every two weeks during the winter and every four weeks during the summer months; the appointment of Secretary Carnegie as assessor and also returning officer; and permission to the newly formed Women's Institute to hold meetings every month in the Town Hall.

Councillor Allan had further famous thrusts upon him when the Mayor appointed him to the Finance and P. W. Committee.

Secretary Carnegie had a bad attack of lapus lingus when introducing Mike Shulski's offer for town lots, which he explains by stating (Continued on page three.)

### Bassano's Four Crests

Together with many other towns in Southern Alberta Bassano effected a most remarkable eleventh hour rally in the Victory Loan Campaign which resulted in the glorious attainment of a flag and four crests.

Even the most confirmed optimist must have been astounded at this result after so long a period of pessimism and vacillation on the part of the public, but those who knew the chairman best preserved a Micawber-like attitude and were not disappointed, for during the last two days of the campaign subscriptions began to roll in with ever-increasing momentum until by Saturday night Bassano was entitled to the Honor Flag with four crests, and thus once again has the town risen nobly to its obligations.

The total amount subscribed in Bassano was \$42,600.

The weather conditions made it next to impossible for any systematic work in the district to be attempted and that undoubtedly had a great bearing on the very poor returns made.

### Carnegie Honored

According to Secretary Carnegie the recent convention of municipalities held at Edmonton was pregnant with great possibilities for the betterment of municipalities throughout Alberta.

One of the most interesting incidents of the convention was the election of our worthy secretary to the Executive Committee formed to present certain proposals to the legislature next year, with regard to improving the system of taxation generally throughout the Province.

## Quality Merchandise

Come up the side street (Opposite the Post Office) It Pays!

|   |  |

## Drastic Regulations To Conserve Fuel

Chicago—New restrictions on the use of soft coal are announced. In some localities orders were more drastic than during the war, but the general situation showed little change.

While production in West Virginia and Colorado were reported increased, there was no noticeable change in the ranks of the 425,000 striking miners.

Sixty-state trains were anguished by the Chicago and Northwestern and the Chicago, Milwaukee and St. Paul railroads.

Indiana's public service commission took the most drastic action in the domestic fields. It decreed lightless streets, discontinuance of electric signs, coal gas for heating and other advisable restrictions of service by public utilities, with less than a two weeks' supply of coal.

With calls for assistance from communities suffering from a coal shortage growing more numerous, the railroad administration turned loose every available car to meet the appeals made for fuel.

Orders were sent to regional directors of the nation's railroads from Director-General Hines, to eliminate train service where absolutely necessary in the public interest, but it was officially announced that no general curtailment of service was contemplated.

## Russian Government

### Must Change

Allies Will Continue Economic Pressure Till Democratic Government

London.—The present measures of economic pressure on Russia will continue until a democratic government is established in Russia which can be recognized by the allies, according to a statement made in the House of Commons by Under Secretary for Foreign Affairs Harmsworth.

## Germans Deported at Libau

Troops Were Supplied with Light and Heavy Artillery and Armored Train

Copenhagen.—German troops, presumably belonging to Col. Axeloff-Bernhardt's force, supported by heavy and light artillery and an armored train, attacked Libau, but were driven off by Lithuanian troops, who were supported by British artillery, according to a dispatch received by the Lithuanian press bureau.

In the afternoon a German airplane dropped proclamations on the city. After a prolonged bombardment by the enemy artillery, a new violent offensive was launched in the evening. It was repulsed by the Lithuanians, who suffered heavily.

Wounded British Sailors  
London.—Wounded British blue-jackets aboard the British hospital ship Princess Margaret have arrived at Copenhagen from Riga, the Polish reports. They are from the British cruiser Dragon, which was hit by a German shell, killing nine and wounding four men.

U.S. Thanksgiving Day  
Washington.—President Wilson has set aside Thursday, November 27, as Thanksgiving Day, in a proclamation, which said the country looked forward "with confidence to the dawn of an era when the justice of the nations will find recompense in a world at peace."

## Labor Decides on Hours of Work

Washington.—After nearly five hours of constant fighting, the international labor conference adopted the 48-hour week convention of the organizing committee as a "basis for discussion." But as to exactly what that means, the delegates were not agreed. Despite adoption of the motion confine discussion to the application of the 48-hour week, or will amendments be admitted for a maximum eight-hour day and the 48-hour week? That is the question all sides are asking.

The vote came on a motion presented by Mr. Barnes, British government delegate, that "the draft convention prepared by the organizing committee be adopted by the conference as the basis for discussion."

## Restoration of Ruined France

Plenty of Work for Every Idle Man in Europe During the Year

Berlin.—Work for all the unemployed in Germany for the next eight years will be provided in restoring the ruined mines of Northern France, says Varyants. This opinion is based upon the report of the Franco-British commission sent to France recently to ascertain the extent of the damage and which has just made public its findings.

The task, says the newspaper, "is a great one, it is sufficient to furnish work for every idle man in Europe and for everyone else engaged in superhuman labor."

The reports show the fallacy of the theory that emigration of ten million to fifteen million persons from Germany is an economic necessity.

## Amend Temperance Act

Saskatchewan Minister Influences Grain Growers That Will Form Bill

Saskatoon.—Criticism levelled at the government with respect to the alleged laxity in the operation of the Saskatchewan Temperance Act drew forth a pledge from George Langley, minister of municipal affairs, that the government would introduce legislation to enforce or amend the Act at the coming session of the provincial legislature, at the concluding meeting of Districts 6 and 16 of the Saskatchewan Grain Growers' Association.

## Riots at Sale of Army Goods

Ten Thousand People Storm U. S. Armoury; One Woman Dead

Buffalo, N.Y.—One woman is dead, a score were injured, and a score of others fainting as the result of a riot which broke out at the sale of United States army goods. The dead woman is Mrs. Emma Baumeister, 65 years of age, who fainted in the rush and died in an ambulance on her way to a hospital. The injured were jammed up against the rough stone surface of the armoury and many were badly cut.

Operations on Coast of Alhucema  
Madrid.—Operations by land and sea for the subjugation of the rebel on the coast of Alhucema, Spanish Morocco, are being planned by the government. The captain-general of the district has been ordered to confer with officials over the contemplated plan.

100 Gallons of Liquor Seized  
Winnipeg.—Fifteen boxes containing 100 gallons of liquor, valued at \$2,800, consigned to Brown Brothers, Winnipeg, were seized at the Victoria station. Officials said the seizure was in line with the campaign launched a month ago against the "boot-legal" trade.

Ham Prices Drop  
Quebec.—A sudden slump of eight cents in the price of cured and uncured ham agreeably surprised Quebec housewives. This sudden decline in the price of the order from the government. Bacon also has suffered a decline of about 6 to 8 cents per pound.

## Labor Decides on Hours of Work

with reference to a special committee of matters concerning its application to tropical and other specified countries. Originally, Mr. Barnes' motion read: "The draft convention on the 48-hour week," but an amendment by Mr. Fontaine, French Government delegate, struck the words "48-hour week" from the motion, and, as amended, it was adopted by 55 to 2. Mr. Rowell and Mr. Acland, Canadian Government delegates, and Mr. Parsons, Canadian employers' delegate, voted against it. That of Sam Varyants, president of the American Federation of Labor.

## Judgment Reserved On Pork Prices

Decision of Board of Commerce on Packers' Protest Will Be Announced Shortly

Ottawa.—The decision of the Board of Commerce as to whether the price prevailing on March 10 for pork products will apply at the present time or will be made in writing shortly. After hearing representations from the packers, who are seeking to have the board order the fixing prices at the March level, Commissioners Robson, O'Connor and Murdoch reserved judgment. Commissioner Murdoch called to J. S. McLean, representing the Harris Abattoir company, his firm conviction that the packers and not the farmers fixed prices of livestock. This contention Mr. McLean disputed.

## Imperials to Pass Through Canada

Veterans of Winnipeg Are Planning Reception for Them

Winnipeg.—In a day or two, three thousand British "soldiers" will be passing through the West on their way home from Siberia. They will arrive at the coast on the Montague. As this is the largest party to come across Canada since the war, the soldiers and their auxiliaries are going to meet them with some cheer at a mark of appreciation of the part of the imperial army to the Empire.

## Fuel Is Held Up

Coal Shipments From U.S. to Be Allowed First on Priority List

Toronto.—Although coal consigned to Canada has been held up at the border, H. Harrington, Ontario fuel administrator, had been advised that shipments will be permitted to come forward for industries on the priority list, which are in immediate need.

Mr. Harrington has received the following message from Washington in connection: "The United States Railroad Administration has seized all coal on wheels, which has been obstructed by the Canadian government's schedule. The director of purchases of the United States railroad administration will have charge of the distribution. It is essential that you get absolute proof that the preferred industries are in immediate need of coal upon receipt of which information the administration will take up the advisability of immediate release to the preferred industries, according to priority list."

Sentenced to Death  
Winnipeg.—Fred Strayd, of St. Albert, charged with the murder of his employer, John Kohut, by poisoning, last February, was found guilty by a jury at Assiniboia court here and sentenced by Judge Galt to be hanged at the provincial jail on January 29, 1920.

Premier Supports Viscountess Astor  
Plymouth.—Lady Astor has received the personal endorsement of Premier Lloyd George in her candidacy for a seat in the House of Commons from the Plymouth district. The Premier, it was announced, has sent her a letter of encouragement and a promise of his hearty support.

French Defeat Turks  
London.—Turkish forces have been defeated by French troops in Angora (Asiatic Turkey) 200 miles east of Constantinople, according to a Constantinople dispatch. The Turks defeated a heavy attack, but were repulsed after several hours of fighting. The French hospital train also was reported to have been attacked by troops under Mustafa Kemal.

50 Schooners for Dominion Govt.  
Victoria.—It is reported here that the Dominion Government plans to place contracts for fifty wooden schooners with British Columbia shipbuilders. According to the report, 25 of the vessels will be stationed at this port and the other half will be turned out by yards on the mainland.

Peace Treaty Effective November 28  
Paris.—The treaty of Versailles and the peace settlement with Germany will become effective if it is accepted in the required circles, on November 28.

The signature of the protocol and the exchange of ratifications between Germany and such allies powers as have then ratified the treaty will take place on that date, it is reported.

## Metal Workers Of Berlin Strike

Minister of Economy Refuses to Intervene in View of Strike Order Being Issued

Berlin.—The metal workers proclaimed a general strike. The minister of economy had intended to offer mediation between the men and the employers, but he has announced that he will not intervene in view of the order to strike.

The strike is nearly general, although three thousand workers of the Siemens-Halske plant returned to their jobs. The strike is said to have been called in violation of rules in the metal workers' union, which require a two-thirds majority of the workers on a vote to decree a general strike.

## Says Car Situation is Bad

Prof. W. J. Elliott Also Denounces Conditions at Calgary Stockyards

Calgary.—Following the car situation in the province as awful, Professor W. J. Elliott, of the U.G.C., dealt strongly with the situation at the U.G.C. secretary's convention. He also denounced the conditions at the stockyard here, stating that the yards were entirely too inadequate to handle the present business.

Discussion of the business and condition of the U.G.C. also occupied some of the meeting. Criticism of the condition of the organization was heard, and it was stated that the financial condition of the company was none too good, and that the company to close down now it would show a loss of a quarter of a million. Officials of the organization claimed, however, that this did not represent the true condition of the company. The opinion was strongly expressed during the session that the company should trade on the basis of a wholesale concern.

It was stated that the entire wheat crop of Alberta was about five million bushels, and officials said that the company could handle every bushel that did not go back into the ground or was fed to stock.

## No Coal For Foreign Ships

Order Is Issued By U.S. Railroad Administration Committee to Measure

Washington.—Instituting the first general curtailment in coal transportation as a conservative measure, the railroad administration committee ordered discontinued the bunkering of foreign owned vessels in the United States owned ships and vessels flying the American flag will continue to receive fuel supplies.

Chicago.—In addressing the Chicago association of commerce, Edwin W. Sims, president of the Chicago crime commission and former United States district attorney, declared that Chicago, with its population of 3,000,000, has more murders in a year than England.

Dublin.—Ernest Blythe, member of the Sinn Féin parliament, who was sentenced to a year in prison, was released from prison after having served 105 days on a hunger strike. Blythe was taken to a hospital.

British-Chilian Treaty  
Washington.—Great Britain and Chile have ratified the arbitration treaty, negotiated some months ago, the state department has announced.

The treaty is to continue in force for five years, and automatically extends itself until a year after notice of termination by either government.

Distress on Lower St. Lawrence  
Quebec.—Reports of distress have been received here from points in the lower St. Lawrence, on the north and south shores, especially on the Gaspe coast and at Esquimaux point. Merchants here have been unable to obtain supplies which they cannot send out, as there are no vessels available. An application has been made to the government to have the steamer Montcalm make several trips to the lower St. Lawrence to deliver supplies to the people before the close of navigation.

Prince Drives Own Train  
Montreal.—At Flaville, twenty miles west of Tremblay, the Duke of Wales boarded the locomotive of the Canadian Pacific railway train and personally drove the train into Tremblay.

## Over A Thousand Huns To Be Tried

### Revolution in Printing

New Inventions May Do Away With Type Composition

New York.—Perfection of a process which will take the place of printing and engraving was predicted as a direct result of labor difficulties in the publishing business here, by Roger W. Allen, former president of the New York business publishers' association, who predicted that new machinery would soon do away with all type composition.

Investors have been busy on new devices and combining the use of old ones, said Mr. Allen. The magazines will not look to the printers, particularly different from issues formerly produced, he added.

## Gale Sweeps Superior

Vessel Is Severely Damaged By Heavy Storm

Sault Ste. Marie, Mich.—A stiff northeast gale sweeping Lake Superior yesterday battered the steamer North Star, which came down the river, covered with snow and ice. The North Star, a Great Lakes Transit Company vessel, is the first ship this season to appear here with marks of such a storm. Her starboard rail was stove in and she had lost almost her deckload of lumber.

No other reports of vessels caught in the storm have been received here.

Million Bushels of Potatoes Frozen  
Winnipeg.—According to official figures made public by the department of agriculture, about one million bushels of potatoes have been frozen in the ground, meaning a loss of about a million dollars. This is a material reduction from the figures given out a few days ago, but the estimated yield this year was only five million bushels, or two million less than last year.

Last Dependents to Leave England  
London.—Eight ship stewards, whom they carry 2,000 Canadian dependents this month, which will complete this class of traveller. The first two parties to be conducted to Canada will be domestic servant emigrants, each numbering about a hundred. They will leave during the month.

Crime Conditions in Chicago  
Chicago.—In addressing the Chicago association of commerce, Edwin W. Sims, president of the Chicago crime commission and former United States district attorney, declared that Chicago, with its population of 3,000,000, has more murders in a year than England.

Roundup Up the Bolsheviks  
London.—A headquarters bulletin from Gen. Denikin, received here, says that the Bolsheviks have been captured 35,000 Bolsheviks between October 17 and 27. The troops of Gen. Denikin's volunteer army, which are now numbering 20,000 men. The communists assert that entire divisions of Bolshevik troops are being put out of action daily.

Victory Loan Popular in U.S.  
Toronto.—United States citizens have a keen appreciation of the value of the Victory Bonds. Subscriptions from the other side of the border up to a few days ago totalled \$2,281,510, two millions more was collected last year in the entire campaign.

Enemy Delegates' Passage Arranged  
Washington.—The German and Austrian delegates to the International Labor conference here having failed to obtain passage to America, the supreme council at Paris has agreed to endeavor to arrange bookings, according to a cablegram received by the conference.

## Government Rejects Offer of Miners

### Plan Merging Agencies

Dominion Employment Bureau May Supplant All Others

Vancouver, B.C.—The World says "A move is on foot to place all government employment agencies under the department of civil service establishment. This would mean the transfer of the Dominion Employment Bureau now operated here would be operated from the S.C.R. office under the direction of the unit commander in British Columbia, and to coordinate the scheme as it has been moved the provincial authorities would be asked to come into line and merge their own services with the soldiers' organization."

Many men seen dead to the world when he is buried in thought.

Brussels.—Copies of the legal evidence to stand trial for offences committed in Belgium during the German occupation will be demanded, have now been forwarded to the peace conference at Paris. The indications are principally based upon the execution of the Belgian citizens at Louvain and other towns, upon the execution of Belgian workers, upon the forced labor exacted from prisoners of war, upon the treatment of young men who attempted to cross the frontier to join the Belgian armies, and upon instances of pillage.

## First Meeting of Peace League

Date Has Not Yet Been Fixed For Gathering

Paris.—The first meeting of the council of the League of Nations will be held in Brussels. The council has decided. It did not, however, fix a date for the gathering. It was agreed that the council of the League should convene at the meeting only matters which must be passed upon immediately at the formal ratification of the German peace treaty.

The supreme council discussed its own uncompleted work preparatory to the opening of the peace conference. The council will be held in the peace conference end.

## Kaiser Is Well Punished

King George Gives Missionary His Views of Ex-Emperor of Germany

London.—King George gave his view of the former German emperor in the course of an audience with a missionary from Ararat, Archbishop Forster.

When the missionary told the story of his captivity of four years, saying that the troubles had all been instigated by the Germans, the King replied: "Well, they are punished now. The latter has had to run away from his own country. He is well punished for all his evil."

Roundup Up the Bolsheviks  
London.—A headquarters bulletin from Gen. Denikin, received here, says that the Bolsheviks have been captured 35,000 Bolsheviks between October 17 and 27. The troops of Gen. Denikin's volunteer army, which are now numbering 20,000 men. The communists assert that entire divisions of Bolshevik troops are being put out of action daily.

Victory Loan Popular in U.S.  
Toronto.—United States citizens have a keen appreciation of the value of the Victory Bonds. Subscriptions from the other side of the border up to a few days ago totalled \$2,281,510, two millions more was collected last year in the entire campaign.

Enemy Delegates' Passage Arranged  
Washington.—The German and Austrian delegates to the International Labor conference here having failed to obtain passage to America, the supreme council at Paris has agreed to endeavor to arrange bookings, according to a cablegram received by the conference.

## Government Rejects Offer of Miners

### Plan Merging Agencies

Dominion Employment Bureau May Supplant All Others

Vancouver, B.C.—The World says "A move is on foot to place all government employment agencies under the department of civil service establishment. This would mean the transfer of the Dominion Employment Bureau now operated here would be operated from the S.C.R. office under the direction of the unit commander in British Columbia, and to coordinate the scheme as it has been moved the provincial authorities would be asked to come into line and merge their own services with the soldiers' organization."

Many men seen dead to the world when he is buried in thought.

**SPHOEN'S DISTEMPER COMPOUND**  
When your house is subjected to changing weather conditions, the walls and ceilings become discolored and stained. Spohn's Distemper Compound is the best remedy for these troubles. It is a good compound, as its action can be seen on the walls of your house.

Sole Agent for Alberta  
SPHOEN MEDICAL COMPANY, 1878, Calgary, Alberta, U.S.A.

## Ask Your Druggist For Dr. Miles' Calendar For 1920

IT IS FREE and the best large-figure Calendar published. It gives the weather forecast for each day in the year, also time of Sunrise and Sunset and phases of the Moon. "An exceptionally complete and useful Calendar." That's what everybody says. The edition is limited. It is therefore important that you call early so that you will be sure to get this splendid free Calendar at the beginning of the year.

Just go to your druggist, tell him your name and address, and that you want Dr. Miles 1920 Calendar. He will do the rest—FREE.

### Valuable Copper Mine

Almost Certain That a Railway Will Be Extended Into Northern Manitoba Near the Pass. The engineers of the Hayden Stone Co., New York, passed through Winnipeg recently after visiting Northern Manitoba to determine the value of the famous Finlay River Copper Mine. Their report is that the mine is of great value and that negotiations will likely be completed in December. Should they be successful, it is almost certain that a railway will be extended into Northern Manitoba near the Pass. The line will extend from the Pass to the mine, a distance of over seventy miles. This mine is worth approximately two million dollars.

The Hayden Stone Co. are acting as agents for J. C. Jackson, U.S. copper interests.

## Your Eyes

Granulated Eyelids,  
Irritation, Redness,  
Swelling, Itching,  
Discharge, Pain,  
Blurred Vision,  
All cured by  
Dr. Williams' Pink Pills for Pale People.

### Mixed Farming Gains Favor

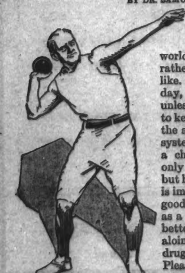

Cattle Shipment.

The farmers of Cheshire, Alberta, made up a special train of forty-eight cars of cattle and sent them to the Chicago market recently. This is the largest shipment ever sent from this district, and it was handled smoothly by the farmers themselves. "Mixed farming is being generally adopted throughout the surrounding territory and is bringing prosperity to the farmers. They expect to have more than a hundred cars of cattle for disposal this fall."

The development of the Cheshire district is characteristic of Western Canada. First stockraising was carried on; then the farmers engaged almost exclusively in grain growing; now the tendency is more and more towards mixed farming. This does not mean that less grain is being grown, but rather that more livestock is being raised.

## Keeping Fit

BY DR. RABBIT HAMILTON.

It is because of the way that the perfect physical man has all at once become the jidol of the world. You can make of yourself, even rather late in life, almost anything you like. You are not going to get fit in one day, one month, or perhaps a year, unless you take enough outdoor exercise to keep the circulation going and practise the athlete's first principle—to keep the system clean. He does not give his body a chance to absorb poisons. He not only takes his cold shower, after exercise, but he knows a cleansing of the intestines is important, and he takes occasionally a good regulator and liver cleanser, such as a dose of castor oil, or, what is much better, a tiny pill made up of May-apple, aloin and jalap, and sold by all body druggists in the land as Dr. Pierce's Pleasant Pellets.

Keep the kidneys in good order also. Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the urine acid out of the system by taking "Anurio" (anti-uric acid). This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and you suffer from headache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night. Take heed, before too late! Get Anurio (anti-uric acid) which will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten cents for trial package of "Anurio."

### Manitoba Fruit

Three hundred barrels of apples have been sold from a Manitoba orchard this year.

It is officially announced that one million pounds of honey will be produced in the province this season. This estimate is the result of a careful and conservative survey of the honey industry, and exceeds previous year's production by over one hundred thousand pounds.

## TONIC TREATMENT FOR THE NERVES

Neuralgia and Other Nerve Disorders Cured Through the Blood

In many cases nervous disorders the best remedy is often a tonic. The most active tonic treatment is recommended by the highest medical authority to arrest the progress of such disorders. Dr. Williams' Pink Pills are a tonic that acts on the nerves through the blood, which carries to the nerves the elements needed to build them up and restore them to a normal condition.

Neuralgia, sciatica, nervous headaches, a number of more or less nervous troubles are properly treated by building up the blood with Dr. Williams' Pink Pills and are often cured in this way. If you are nervous you can help yourself by trying to worry, by taking proper rest and sleep, by avoiding excitation and taking out-of-door exercise. For medicine take Dr. Williams' Pink Pills and you will soon notice the beneficial effect of this tonic in every nerve of your system. Annie L. Johnston, R.R. No. 1, Listowel, Ont., is one of the numerous sufferers from nervous troubles who has written word for word for Dr. Williams' Pink Pills. Mrs. Johnston writes: "I began their use and took the pills regularly for several months, with the result that I not only gained weight but have recovered my full health and strength. I cannot praise Dr. Williams' Pink Pills too highly for what they have done for me."

To build up the blood there is one remedy that has been a household word for a generation. Dr. Williams' Pink Pills for Pale People. They are a tonic that acts on the nerves through the blood, which carries to the nerves the elements needed to build them up and restore them to a normal condition. Dr. Williams' Pink Pills for Pale People. They are a tonic that acts on the nerves through the blood, which carries to the nerves the elements needed to build them up and restore them to a normal condition.

### Canada's Coal Resources

The tabulated statement of coal production shows that no coal is produced in three provinces, namely, Quebec, Ontario and Manitoba. In 1917, the total production in Canada was 1,015,588 tons, having a value of \$7,643,646.

Nova Scotia led in coal production, with 635,688 tons, or a little more than three-fourths of the total output. Alberta was second with 472,319 tons.

Some people save a lot of money by not buying soap.

It bids Pain Begone—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtue of Dr. Thomas' Electric Oil. Well rubbed in, it will still the pain and produce a sensation of ease and rest. There is nothing like it as a liniment, for its curative properties are great. A trial of it will establish faith in it.

Remember girls, that it is easier to clope than it is to get back home again.

Minard's Liniment Cures Distemper.

The Unkind Printer  
Misprints are often a source of joy to all but editors. Few are more pleasing than those contained in the ancient year—probably concocted—of the public banquet at which a speaker, in proposing a toast of "The Army" coupled with the name of the distinguished general, whom he described, according to the printed account of the proceedings, as a "bottle-necked veteran." In the next issue of the paper in which the label had appeared a note was inserted expressing regret for a typographical error, and explaining that the words should have been "bottle-necked veteran."

The Bank of England has the right to sell beer without a license. This privilege was granted to the bank in its charter of incorporation under date of July 27, 1694. And so the bank, if it liked, could open a bar on Threadneedle street, or could have wagons round and deliver beer from door to door. Needless to say, however, it has not attempted to exercise the privilege.

### To Further Education

Western Provinces to See People Get Necessary Facilities for Educating Their Children

Manitoba, Agricultural College has enrolled over three hundred new students, bringing the class attendance to five hundred. Many returned students are to be found among the students. As an instance of the desire on the part of the Western Provinces to see that people living within their borders get the necessary facilities for educating their children, a school has been organized on Snake Island, one hundred and sixty miles north of Selkirk, Manitoba, where the means of access is by water. The institution is small, but the educational facilities are provided in exactly the same manner as in more accessible and populous districts.

Complete in itself, Mother Gray's Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

The political party worker is the one who is the most successful in working the party.

Minard's Liniment Cures Diphtheria.

A Scottish minister had been away on a vacation, and on his return asked the sexton how all had gone in his absence. "Very well, indeed," was the cheering response. "They do say that you are a good man, and that you have been away for a long time when they go away, but you never do that, sir?"

## LISTEN TO THIS! SAYS CORNS LIFT RIGHT OUT NOW

You reckless men and women who are bothered with corns and who have tried every remedy known to man, but have failed to get relief. I read what Minard's Heart and Nerve Pills are now sold by a Cincinnati authority to use a drug called Frezoon, which the moment a few drops are applied to the corn, the corns are relieved and soon the entire corn, root and all, lifts out with the Frezoon.

It is a sticky ether compound which Frezoon is applied to the corn, and simply shrivels the corn without irritating or even irritating the surrounding tissue. It is claimed that a quarter of an ounce of Frezoon will cost very little and is sold of the drug store, but is sufficient to rid you of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.

Men, like tools, are useless when they lose their temper.

Minard's Liniment Co., Limited.

Gravel—Last winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of La Grippe, and I have frequently proved it to be very effective in cases of inflammation.

Yours,  
W. A. HUTCHINSON

Britain Exporting Live Stock

August was a record month for British live stock exporting. Over a million dollars poured into the pockets of British breeders of pedigree stock. Since New Year's Day about 640,000 have been paid Britishers for their horses, cattle, sheep and pigs. In August, 518 horses were sent out of the country. Holland was a buyer of 102 head worth \$500 each. Belgium took 98 head worth \$1,350 each. During the month 916 cattle were sent away, the United States taking 31, Canada bought 41, Uruguay 30, and Argentina 99. The total number of sheep exported was 1,819 head, of which the United States took 480.

## A Money - Saving Bottle

A Bottle of Bovril in the kitchen will cut down butcher's bills. It enormously increases the nourishing value of food—in fact, its body-building powers have been proved ten to twenty times the amount taken. It itself be Bovril.

### Sir Roslyn Wemyss Honored

A Barony of the United Kingdom has been conferred upon Admiral Sir Roslyn Wemyss, G.C.B., who has relinquished the post of First Sea Lord to Earl Beatty.

## Like a Tidal Wave

Heart Disease and Nerve Troubles Sweep the Country

Probably at no period in the world's history have heart and nerve troubles been so prevalent as they are today.

The heart can't stand the stress and strain of this busy, bustling age, and the nervous system, the anxiety and strain of business life, constitute a serious drain on the nervous system. The business of this work-day world goes on with such a rush that the stoutest heart and strongest nerves break down under the pressure.

The first approach of any breakdown of the system, Minard's Heart and Nerve Pills should be taken. The recuperative power of these pills on the heart and nerve system is simply marvellous.

Mr. W. A. Wright, Hopewell Ave., New York, writes: "After suffering for some time with my heart, I consulted a number of doctors, but got no relief. However, I read what Minard's Heart and Nerve Pills are now sold by a Cincinnati authority to use a drug called Frezoon, which the moment a few drops are applied to the corn, the corns are relieved and soon the entire corn, root and all, lifts out with the Frezoon."

It is a sticky ether compound which Frezoon is applied to the corn, and simply shrivels the corn without irritating or even irritating the surrounding tissue. It is claimed that a quarter of an ounce of Frezoon will cost very little and is sold of the drug store, but is sufficient to rid you of every hard or soft corn or callus.

You are further warned that cutting at a corn is a suicidal habit.

CORNS ARE LIKE KNOTS

Year by year they grow harder, and incidentally more painful. Why suffer when you can be cured for 25 cents on Putnam's Corn Extractor?

Soft Drinks

Have you any idea what things are in the bottled soft drinks you consume? Some contain one thing, some another, but all contain water, favor, sweetening and carbon dioxide gas. Those four things are the basic essentials of a bottled soft drink. There is likely to be some coloring matter and there may be an acid—usually either the citric acid found in lemons or tartaric acid found in grapes, though sometimes mineral acids are used. Frequently there is a condiment, such as red pepper, cinnamon, allspice, cloves or nutmeg. There is almost certainly a trace of alcohol. And that just about covers what is likely to be found in these soft drinks.

## Buy an Irrigated Farm

From the Canadian Pacific Railway.

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but EVERY YEAR. Irrigation makes possible the successful culture of alfalfa, the King of alfalfa, which insures good returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement, with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having absolutely demonstrated its success wherever intelligently applied.

This is the most liberal offer of irrigated farms land on record.

For full particulars, apply to

**Allan Cameron, General Supt. of Lands**  
Canadian Pacific Railway, Department of Natural Resources  
606 First Street East, Calgary, Alberta.

### BECAUSE—

the Canadian Pacific Railway at prices up to \$20 PER ACRE, with twenty years to pay and the privilege of a loan of \$2,000 for improvements (6% interest) on

principal after first payment made end of fourth year, reduced

interest if settlement conditions are complied with, and no water rental for first year.

Contract can be paid off before maturity if desired.

### The Bassano Mail.

Publishers: The Mail Publishing Co., Ltd.  
Managing Editor: E. G. Allen

In response to several requests to investigate the proposition of establishing a Creamery and Cold Storage plant at Bassano we have taken the matter up with the Department of Agriculture and with the supply houses and the net result of our enquiries is decidedly encouraging.

In the first place, the Department will advance to any properly incorporated co-operative society the sum of \$1500.00 and assumes up of the heatier co-operation and support in every way.

They offer much practical advice as to methods of incorporation and organisation and suggest as a basis for working that each member of the society take shares to the extent of \$10.00 for each dairy cow.

By this method every member assumes responsibility and receives profit according to the number of contributing cattle in his possession.

Thus, if the number of dairy cattle in possession of members was 1000 head the society would be capitalized at \$10,000.00 and every member would have shares according to the extent of his herd, which is an ideal arrangement.

An estimate received from one of the largest supply houses for equipment of the necessary machinery to handle the product of 1000 head of dairy cows amounts to \$3600.00 approximately.

With the excellent facilities here at Bassano, situated as it is in the heart of the irrigation belt and a junction for three lines there can be little doubt, that if properly managed a creamery would be highly successful from the very beginning.

It would represent development along the right and most profitable lines for the whole district and would be but the start of a number of projects which would help to encourage the intensive farming idea, and would also do much to build up the prosperity of the community.

The addition of a small cold storage plant would cost but a very small sum and would prove highly profitable, not only by keeping all the profits at home, but also in the encouragement of poultry keeping which so many of our farmers neglect to-day.

This whole project might very well be taken up by the Agricultural Society and an expression of opinion taken by the members for it is undoubtedly worth while in every way.

Very shortly the ratepayers will be required to elect three new councillors, two school trustees and a member of the Hospital Board.

Before these can be elected however they must have first received and accepted nomination.

It would, therefore, seem good business for the ratepayers to select the best men for the positions possible to obtain, and between now and nomination day persuade them to accept their nomination.

There is not a scrap of dead wood among any of those whose term of office expires this year and they should be returned to their respective positions if it is possible to get them to accept nomination.

### How We Are Governed

An excellent example of the beautiful hand-picked lawyer-made laws of the province is well illustrated by the recent catastrophe which has befallen the School District with regard to the cancellation of sub-divisions in the radius of the school district.

The law provides that the consent of the town and school district must be obtained together with that of the Public Utilities Commission, or a decision given in favor of the cancellation by the latter after evidence has been submitted by both sides, before any sub-division can revert to farm lands as a basis for taxation.

So far this is eminently fair and equitable to all parties. But that does not suit our lovely lawmakers and naturally a joker has to be inserted, which permits the plaintiff to take the case to a Judge in Chambers without notice being given to the town or school district, and may obtain an order for the cancellation without any evidence being heard from the other side.

This proceeding makes a joke of the Public Utilities Commission and an absolute mockery of the principles of democratic government.

As a matter of fact the law makes it possible for the cancellation of sub-divisions in manifestly unfair, for in most cases school districts have built their schools upon the amount of assessable property, and as the owners of sub-division properties made application of their own free will to be included in the town, they should be required to bear their proportion of school taxes to the end of the chapter.

The speculation was theirs and not the school districts but the law provides a way out for them without giving the school districts an opportunity even of stating their case.

Such legislation as this is only negating the end of the lawyer, and in all our provinces and that fact perhaps is the silver lining to our cloud of unequal, badly balanced laws.

### Why Take A Chance

Accidents resulting in death through automobiles being struck by railway trains have been the cause of enquiry for more than a year the past six months.

Almost every one of these accidents can be traced to either carelessness or obstruction on the part of the automobile driver. They do not seem to take into consideration the speed of the train or the fact that it cannot leave the rails to avoid hitting the road vehicle.

Engineers on railway trains have asserted that their nerve have been put to the ragged edge by automobile drivers who will insist on attempting to cross the highway ahead of the train. Engineers can see the automobile approaching for several miles on the prairie, they know instinctively that if both are going somebody will be killed. The engineer cannot stop and the automobile driver does not seem to sense the danger. Even if he sees that he cannot see ahead of his train he will run, at all speed to a point just as close to the moving train as possible relying on his winks to hold.

The public should be aroused to the danger everywhere existing in the attempted bravado of the men driving the automobiles in such fashion for practice like these are foolish almost to the point of laziness.

### TOWN COUNCIL

That the sound of Mike's name reminded him of home.

Mike Szulski offered the sum of \$100 for a lot now in possession of the town (which, in reply to Coun. Szulski's question whether same was in the industrial section, was found to be in the wheat belt), and his offer was accepted.

A request from a Calgary firm for the lowest cash price on a boiler which the town has for sale was referred to the waterworks committee.

Hon. A. J. McKay bestowed his blessing upon the Council for its recent agreement with the C.P.R. The Secretary was instructed to request the owner of the hole in the ground adjoining the Post Office to have same fenced.

The F. L. F. Committee advised

**Bassano Forms Branch  
of Women's Institute**

Mrs. F. W. Hughes, organizer  
for the Women's Institutes of  
Alberta addressed a representative  
gathering of women on Thursday  
last and was successful in forming  
a branch of the Institute here.

The scope of the organization is  
only limited by the ambitions and  
opportunities of the members and  
has in its range of possibilities a  
great power for improving the com-  
munity and social life of the town.

The organization is worthy of the  
whole-hearted support of every  
woman in the district for there is  
every indication that the Institute  
will be able to correct many de-  
ficiencies in the public life of the  
town.

The officers of the Institute were  
appointed as follows:

President, Mrs. Bredin; Vice-  
Presidents, Mrs. W. J. O'Neill  
and Mrs. Bolton; Secretary, Mrs.  
H. S. Johnson; Executive, Miss  
Ashdown, Mrs. Bulmer, Mrs.  
Robinson and Mrs. Struthers.

Notices of meetings will be  
published in the Mail and members  
are requested to watch for the date  
of the next meeting which will be a  
most important one.

**Bulyea Council Meeting**

Minutes of Council Meeting held at  
Municipal Office Saturday November  
12th, 11 o'clock a.m. 1919.

Attendance: Messrs. Stewart, Depe-  
re, Gibson, Owen's Brander and  
McCoy.

Moved by Coun. Gibson that the  
minutes of the last regular meeting be  
adopted. Carried unanimously.  
Moved by Coun. Gibson that the  
Secretary write the Dept. of Agriculture  
re information for feed for stock.  
Carried unanimously.

Moved by Coun. Brander that the  
insurances of the feed Inspector issued  
on Oct. 8th, be moving feed of E. 35  
15-23-14 be carried out. Carried  
unanimously.

Moved by Coun. McCoy that the  
Deputy Assessor be paid at the rate of  
fifty cents per quarter session, in each  
ward. Carried unanimously.  
Moved by Coun. Gibson that we ask  
the Kill En-quick Gopher Poison Co. to  
renew our note for six months. Carried  
unanimously.

Moved by the Reeve that the next  
regular meeting of the Council be held  
at the Municipal Office on Saturday  
December 18th, at 11 o'clock a.m.  
Carried unanimously.

Moved by Coun. Gibson that the  
meeting adjourn. Carried.

L. E. HELMER,  
Secretary.

**Canada's Agricultural  
Position**

The Hon. R. F. Tolmie, Canada's new  
Minister of Agriculture, has summed up  
the outstanding facts of Canada's agri-  
cultural position in an article appearing  
in the November number of The Agri-  
cultural Gazette. He presents statistics  
showing the growth of Canada's agri-  
cultural position during the past five years  
and points out means by which our  
national debt will be reduced. He says  
in part "I am confident that this Do-  
minion, through the development of her  
natural resources, will in time wipe out  
her debt. Forests, fisheries, and mines  
all constitute their part of the revenue  
but by far the greatest return will be  
derived from agriculture which industry  
we must continue to establish in perma-  
nency and increase in magnitude. One  
of the greatest responsibilities that falls  
on either the federal or provincial de-  
partments of agriculture is the conserva-  
tion of the great wealth that lies in the  
virgin soil. Innumerable considerations  
are involved in this one problem, but  
the whole effort can be accomplished if  
we engage in mixed farming with live  
stock as a basis. This is the funda-  
mental principle underlying success in  
agriculture."

## Add that extra piece of furniture for Christmas.

There is scarcely a home  
which is so complete that  
there is not some little thing  
needed to make it more  
cosy and comfortable.

And what more appropriate  
gift could be made at Xmas  
than that little something  
your home lacks for your  
wife's or children's comfort.

*We can supply you  
with any article of  
house furniture you  
need from single pieces  
to complete suites.*

Our prices are away below the larger  
City stores and our stock is in many  
cases better.

**Drop in and talk it over.**

Gramophones, Records, Albums. A beautiful  
of pot plants and ferns.

### Notice to Subscribers

We would appreciate prompt payment  
of all subscriptions in arrears and we  
also beg to announce that on and after  
January 1st, 1920, we shall be com-  
pelled to raise our annual subscription rate  
to \$1.50.

All subscriptions and renewals received  
between now and January 1st, will be  
charged at the old rate.

### DUNLOP TIRES

#### ---EVERYWHERE

¶ Dunlop Traction Tread  
can be bought in a greater  
number of garages than  
any other tire. Same with  
all the rest of the "Two  
Hands" Tire family:  
Dunlop Cord—"Traction"  
and "Ribbed"; Dunlop  
Regular—"Traction,"  
"Special," "Ribbed,"  
"Clipper," "Plain."

¶ Any place that is good  
enough for you to drop in-  
to in search of a casing,  
tube or some gasoline, oil  
or free air, is a good enough  
place for us to sell Dunlop  
Tires. In these days when  
tire service is priceless—it  
is something to know that  
Dunlop Distribution is of  
the most far-reaching  
character—the most suc-  
cessful "Tire-When-It's-  
Wanted" co-operation  
ever achieved in Canada.

**Dunlop Tire & Rubber  
Goods Co., Limited**

Head Office and Factories: TORONTO  
Branches in the Leading Cities.  
Tires for all purposes. Mechanical Rubber Products  
and General Rubber Specialties.

## ROYAL YEAST CAKES

There is more energy in a pound of good bread made in the home with Royal Yeast Cakes than in a pound of meat. Bread making is a simple operation and requires no previous experience. Full instructions in Royal Yeast Cake Book, mailed free on request.

E. W. GILLETTE CO. LTD. TORONTO

## Controlling the Liquor Traffic

The most efficient method of controlling the liquor traffic with the object of eliminating the abuses and excesses which seem to be inseparable from it has long been the subject of agitation in Canada. Until now one question has resulted in the passage of a greater volume of legislative, the enactment of more restrictive laws, or the taking of more drastic measures than had before been generally accepted by the masses of the people.

Many ardent temperance reformers believed that these restrictive laws would be continued after the war, and that in a generation or two the blight of the liquor traffic would be an evil of the past.

It is now quite apparent that many of these restrictive laws will cease to function with the declaration of Peace, which may be proclaimed for the time being. The situation appears in print, and in any case cannot now be long delayed. One reform brought about by the war will, however, prove lasting; that is, the open bar with all its evils and open temptations, and its pernicious trading habit, has gone.

Actual experience during the war has demonstrated that existing prohibitory legislation is not as conclusively prohibitive as the authors of such laws anticipated they would be. On the contrary, violations of the law are so numerous, and are so largely regarded by the average person, that a condition of things has been brought about in all these Western Provinces which is little short of a scandal, and which is certainly detrimental to a proper respect for law and subversive of good morals.

In the United States, the people have declared for nation-wide prohibition of the sale, manufacture, importation and exportation of intoxicating liquors for beverage purposes. In Canada, on the other hand, we have no Dominion-wide law, nor at present does there seem much likelihood of such a law being passed. For one thing, the Canadian Senate has shown very clearly that it will not give approval to such legislation, and the House of Commons has ever before in the attitude of Quebec, which is antagonistic to an absolutely prohibitory law.

Control and restriction of the liquor traffic in Canada continues, therefore, to be a subject for provincial action, supplemented by such Federal action as assist the provinces as the provinces by vote of their people may demand.

If your tea or coffee does make you restless or nervous, try

POSTUM

This delightful cereal drink is not only wholesome and economical but is truly satisfying in its rich coffee-like flavour. It can be served to the youngest as well as oldest, for it leaves absolutely no harmful after-effects.

According to legislation passed at the recent special session of Parliament, the manufacture of liquor is prohibited, except for purposes of export, in those provinces which prohibit the sale. Furthermore, the importation of liquor into individual provinces can be made illegal if the legislature of a province acts by resolution that a plebiscite vote be taken by the Federal authorities with such provinces on the subject of importation, and a majority of the voters declare in favor of prohibiting such importation. But after peace is proclaimed, and until such a plebiscite is asked for and held and a verdict favorable to prohibition rendered, importation of liquor for personal use, but not for sale, will be perfectly legal in all Canadian provinces. Thus the prohibitions which have been in force under orders in council will cease with the proclamation of peace. So long as importation into a province is legal, it is manifestly impossible for any provincial legislature or government to enforce prohibition of the liquor traffic. It can prohibit the sale of liquor, but that is all. And no law as importation is legally permitted existing abuses against which a large section of the people are complaining will continue. And at the best it will not be impossible to stop such importation for six months to a year.

When such a plebiscite vote is eventually held in any province, and the importation of liquor is permitted, the provincial authorities will have to seriously consider whether it would not be better to provide for some form of regulated and controlled sale within the province, rather than have the door wide open to indiscriminate individual importation of liquor in unlimited quantities. Should the people of a province declare in favor of permitting importation, most thoughtful temperance advocates believe that some form of government dispensary based on the mail order system, and patterned somewhat after the system which at one time was in vogue in Saskatchewan, should be established.

On the other hand, if the people declare against importation, then the utmost care must be exercised in the drafting of the most drastic kind of provincial laws to prevent a repetition of abuses which are now unfortunately so general. Whatever the nature of the laws enacted, they must have back of them the force of a strong public opinion in order to prove effective and beneficial. In the last analysis it is the people who make the laws, and unless a law has the support of the people it will not be observed and cannot be enforced.

## Kill the Germs of Catarrh

By Acting To-day You Can Quickly Atonoid Catarrh and Avoid Bronchitis, Per-haps Consumption

Most Agreeable and Surest Cure for Catarrhes, Which Cures Every Curable Case

Catarrh proves especially good in those chronic cases where mucous drops down the throat, tickle the stomach, and pollute the breath. When the nostrils are stuffed, only a few breaths through the inhaler are needed to clear the passages, and where there is coughing and severe bronchitis, the soothing healing properties of Catarrhose act almost as magic.

Once you stop taking medicine into the stomach and get the healing oils and pure balsams of Catarrhose at work you can be sure of quick and lasting cure for nose cold, catarrh, weak lungs, bronchitis, and speaker's sore throat.

The complete B.O. Outfit of Catarrhose is sufficient for two months' treatment, and is given in smaller size, 50c, at all dealers, or the Catarrhose Co., Kingston, Ont.

It's surprising how many otherwise healthy inclined men believe in ails and omens.

## A keen blade for every shave

If there's any pleasure to shaving, you get it in an AutoStop Razor. First, because there's always a sharp blade ready for use—a few turns on the stop brings it back to its professional keenness. Secondly, because there's no fumbling with parts after shaving. And thirdly, because a simple adjustment makes it possible for you to shave as closely or as lightly as you wish.

From first to last, sharpening, shaving and cleaning, the AutoStop Razor makes the blade from the razor.

Sir Francis Drake's Sword

At a sale held in Liverpool recently the sword of Sir Francis Drake was disposed of. This weapon is considered to be the one which Queen Elizabeth presented to Drake on the occasion of his being knighted after his voyage round the world. The sword realized 240 guineas.

Hope for the Chronic Dyspeptic.—Through lack of consideration of the body's needs, many persons allow disorders of the digestive apparatus to develop into the most distressing kind of illness, days and nights with suffering. There is a course of Bismette's Vegetable Pills is recommended as a sure and speedy way to regain health. These pills are compounded to combat dyspepsia and the many ills that follow in its train, and they are successful always.

## The Canadian Wheat Crop

Is Estimated by the Government at 193,000,000 Bushels

The Canadian wheat crop for 1919-20 is estimated by the government at 193,000,000 bushels, or about 4,000,000 more than that of last year. According to authorities on agriculture, Canada requires for home consumption approximately 40,000,000 bushels of wheat, and for seed about 35,000,000, making a total of 75,000,000 bushels.

Canada's exportable wheat in 1920 will therefore be about 118,000,000 bushels, as compared with 101,611,000 in the last twelve months, or about 16,400,000 bushels. This will allow of a few million bushels for the carry-over stock on August 1, 1920.

The production of wheat in Europe, on the other hand, is down, and Canada's prospect of a good market is very bright. If credits can be satisfactorily arranged, there is no reason why Canada should not practically sell out everything. Great Britain and Ireland will require at least 180,000,000 bushels, or about 70,000,000 more than Canada has to export.

Look out for dark days when the weather man predicts light rains.

Warts will render the prettiest hand unattractive. Clear the skin free by using Holloway's Ointment, which acts thoroughly and painlessly.

Western Canada's 1919 Crop While exact figures are not yet obtainable, wheat authorities now seem to be conforming to the general opinion that Canada's total yield of wheat this year will be 248,000,000 bushels, as compared with 189,000,000 bushels last year. Of this crop, the share of the Western Provinces is 166,000,000 bushels, or over two-thirds of the total yield.

In addition, one of the most reliable sources in Canada has estimated that the West will produce 227,000,000 bushels of oats, 27,000,000 bushels of barley, 6,000,000 bushels of rye, and over 2,000,000 bushels of flax.

Suspect not a friend's word, but rather his meaning.

## Community Interest

## The Teacher an Important Factor in Community Life

"What does the community expect of the teacher?" To this question there is but one answer, "Everything," according to C. E. E. Fox, principal of Regina Normal, who delivered the principal address before the teachers and trustees of Saskatchewan district recently. He urged strongly upon the teachers the necessity of getting the entire community interested in the school by the use of libraries, parent teacher associations, and other practical measures.

Other addresses, dealing with methods of teaching, were delivered by J. E. Coombes, inspector of the district; Dr. G. M. Weir, principal of Saskatoon Normal; A. S. Ross, and others.

## "SYRUP OF FIGS" CHILD'S LAXATIVE

Look at tongue! Remove poisons from little stomach, liver and bowels

Accept "California" Syrup of Figs on the package, then you are sure your child is having the best and most natural laxative or physic for the little stomach, liver and bowels. Children love its delicious fruit taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

Let bygones be bygones. "By the way, George, what shall we give Mabel for a wedding present? She gave us that plush upholstered chair in the attic, you know?" "I don't think we'd better send her anything, dear, why not let bygones be bygones."

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are found in their effects where the child suffers from loss of appetite. In fact, in conditions they will be found useful in the attic, you know? In fact, in conditions they will be found useful in the stomach, from which children so often suffer.

A man may not be a coward because he is afraid of a woman.

## Minard's Liment Cures Colds, &amp;c.

## Telegraph Service Resumed

The general telegraphic intercourse between Germany and France, inclusive of Algeria and Tunis, has been resumed. Provisionally, only commercial wires in intelligible German, English, French, Italian and Japanese are passed.

The censorship on telegrams in Germany has been raised. Press telegrams from Germany and Great Britain are again allowed, and code telegrams from Germany to Holland are permitted, if reliable information on their contents is given if desired.

Minard's Liment Cures Colds, &c.

A scientist says that cholera germs look like a comma. Possibly, but when they get into a man's system they are apt to put the final period to his existence.

A young widow hasn't much use for a man who attempts to kiss her and fails.

Poverty is the mother of many virtues.

## Iron Pyrites and Clay Deposits

## Interest Shown by Capitalists in Development of Saskatchewan

## Natural Resources

Immense deposits of high grade brick-making clay have been discovered at the Elbow, according to Andrews & Crulickshaw, analytical and consulting chemists, Regina, who recently analyzed samples brought in by farmers of the Elbow district. It has been further discovered that a very valuable deposit of iron pyrites underlies the clay, so that the men who file on these claims and succeed in developing the discoveries have a double-barrelled source of revenue. Iron pyrites furnishes sulphuric acid, which is a basic acid in chemistry and is worth \$35 a ton, while a valuable by-product is obtained in red oxide. Claims extending over a quarter section have been filed on and an endeavor is being made to interest capitalists, says the Regina Leader.

A few days before the discovery of the iron pyrites was made, an Old Country capitalist, who manufactures sulphuric acid in England, was in the office of Andrews & Crulickshaw and said that he would be willing to manufacture sulphuric acid here if he could locate a deposit of iron pyrites. Efforts are being made to get in touch with him.

Messrs. Andrews & Crulickshaw inform The Leader that all indications point to a great movement by Old Country capital in the development of the natural resources of the West, and that the next two or three years should see some important investments in directions which up till now have been entirely neglected in this province.

## HEALTH FOR THE BABY

The baby of today is the man or woman of tomorrow. Thus the needs of the future man or woman depends upon the baby's present welfare. If the baby is healthy and nourished, it is not to be expected that he will grow into a healthy, active man who will hold his own in business world a few years hence. Mothers, it is a duty you owe the future to keep your little ones in the best of health. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, and thus make baby healthy and strong. Concerning them Mrs. W. Orser, Elmhurst, Ill., writes: "I had a fine healthy boy three years, and have never since he was a small baby. I certainly think them a splendid medicine." The Tablets are sold by medicine dealers, or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Corns are proof that nature is capable of small, mean things. Many a fatherman waits with bated breath.

A Remarkable Record

In the five and a half years that elapsed since the Saskatchewan Agricultural Co-operative Association Act came into operation, 465 co-operative associations have been registered. This is a remarkable record. On October 29, Saskatchewan Co-operative Creameries Limited will begin to operate poultry killing stations at Regina and Saskatoon, where chickens, turkeys, ducks and geese may be marketed. This system of co-operative marketing has achieved much success in former years.

All Curable Diseases Successfully Treated.  
To Get Better HEALTH Have CAUSES TREATED, NOT SYMPTOMS.

## Local and Personal.

W. Matheson and D. Gibson were visitors to Calgary for the week end.

There will be nobody home on Wednesday night. Everybody will be at the big dance.

Dad Comer leaves to-day for a visit to Denver, Colo. Needless to say a pleasant time will be had for Dad's bull that a way.

Mrs. B. G. Cooper and Mrs. A. F. MacCallum were visitors to Calgary on Tuesday and Wednesday this week.

It will not be long before Bassano has a skating rink, and perhaps next year or the year after we may boast of a curling rink.

Service will be held at the Anglican Church on Sunday next at 7:30 p.m. when the Ven. Archbishop Hayes will induct the Rev. Giesse to the incumbency of the parish.

Don't forget the big farmers' meeting on Tuesday November 25. Three excellent speakers are to address the meeting on most important subjects.

Work is proceeding rapidly on the hospital, catenary and under the worst possible kind of weather strikes us, we may expect to have it ready for occupation shortly.

Everybody Happy is the motto of the committee that has the arrangements in hand for the big dance on Wednesday night.

The Cluny Girls Club will hold a big turkey shoot at the Cluny traps on Thursday November 27th. A big dance follows the shoot and Bassano sports are specially invited.

The Annual Meeting of Ratepayers for the Town and School district will be held on Monday November 24th. Some very interesting material is to be presented regarding the finances of the town and every ratepayer should make a point of being there.

Messrs. Fred Owen & Palfrey, both returned veterans, are opening a tobacco and candy store in Muir's old store. They deserve, and will no doubt receive, the hearty support of the townspeople in their new venture.

We need some good men to fill the vacancies on Council and School Board and ratepayers will only have themselves to blame if persons are elected in place of workers, for we have the right men for each position if they can be persuaded to accept nomination.

Don't forget the Big Dance on Wednesday night under the auspices of the Anglican Church. This promises to be one of the most enjoyable of the whole season.

Mr. and Mrs. E. G. Holley left on Wednesday for a trip to their home in England, and intend to be away four or five months. Their absence will be felt in many ways, but particularly at the Anglican Church where both have accomplished much good work in a quiet way. Their many friends wish them a pleasant voyage and a safe return.

## NOTICE

The Electric Light service will be cut off on Sunday next, November 23rd at 11 a.m., to enable the company to make necessary repairs and adjustments without interfering with service to the majority of our consumers.

Service will be continued as usual Sunday evening.

## Ratepayers Meeting

The annual meeting of the Bassano School District No. 2111 will be held in the Town Hall Monday November 24th at 7 p.m., when the Financial Statement of the district for the past ten months in October 31st 1919, will be presented to the ratepayers.

FRANK H. BERRY,  
Secretary-Ex-officio.

**We Pay One Half**

The purchase price of this famous 1881 Rogers A1 Plate

WE give coupons with every 25c. purchase of all the high grade guaranteed products made by the United Drug Company. We are willing to lose money on these coupons, to get you acquainted with their goods, which are standard in their line.

"Retail Remedies"

Liggett's Candles, Perfumes, Toilet Articles, Brushes, Stationery, Rubber Goods, and hundreds of other items. No double discounts, etc. You cannot afford not to secure this popular advantage, since you can set it on our half bought plan. At an example, this soap that sells for 25c. you can get for 10c. with coupons.

J. H. Stiles,

Bassano, Alta.

## You CAN Reduce the H.C.L.

By dealing at the
